Total CECs:

5

BICSI Event ID:

OV-BELD-IN-0324-1

We hereby confirm that this individual is a certified installer trained to install Belden enterprise network copper and fiber cabling systems. This certificate, without being accompanied by a Partner Alliance Company Certificate, in no way authorizes that the certificate holder or their company may i) represent themselves as a certified Partner Alliance member, ii) offer certified system warranties, or iii) carry out maintenance or MAC activities on existing certified systems unless directly supervised by a certified Partner Alliance member.
